cough, croup, and all diseases of the tiver and lungs, broken constitution, &c.

THE above is the original and only genuine preparation from this valuable tree, and has won its way to public favor by its unparalleled success in curing all diseases of the lungs, notwithstanding the many articles prepared by persons who have no knowledge of the science of medicine, in theory or practice; and some, more readily to decive the unsuspecting, use a part of the name of the original preparation, such as "balsam of wild cherry," "Pheenix balsam of wild cherry," "balsam of wild cherry and camfrey," &c.—all sprung up with a mercenary view, after Dr. Swayne's compound is sirup of wild cherry had won a reputation in the healing art never to be forgotten by many a once cheerless fireside. Therefore the public should be not their guard, and purchase none but the original preparation, which is daily performing such astonishing cures in pulmonary complaints, after all remedies had failed, and the patients given up as hopeless. Thousands of certificates might be published, which would astonish credulity itself; but it is deemed unnecessary. Below we publish a few of the names of persons who have been cured by this wonderful remedy:

Robert Glenn, steward of the almshouse near with an offer to supply Key West.

Proposals for commencing said routes at any other United States port on the Atlantic, than as above named, will be considered.

It is intended, out of the foregoing list of routes, to make selection of one to Europe, and one to the Gulf of Mexico and the Pacific, as may beat be determined, after proposals for service on all the routes are submitted—not relinquishing, however, the right to place a greater number in operation, if it shall be deemed expedient to do so.

The proposals should specify the number of trips to be performed during the year, and as near as may be, the day of the month on which the vessel conveying the mail is to depart from the port at each end of the route. The department contamplates on route No. 1, a semi-monthly conveyance for eight months of the year, and a monthly conveyance for the residue of the year; on No. 2, a like frequent conveyance; and on No. 3, the same; on No. 4, a monthly conveyance; on No. 5, as frequent a transportation as two or three times a month; on No. 6, a trip once in two months; and on No. 7, wice or three times a month,

The proposals should specify the mode of con-

No. 6, a trip once in two months; and on No. 7, twice or three times a month,

The proposals should specify the mode of conveyance, whether by steam-ship or sailing-packet; and set forth the size, rate, and description of the vessel, with sufficient particularity to enable the decision to be made on the advice of the proper officers of the naval service, whether the same is or is not convertible into a ship-of-war. And special notice is hereby given, that, agreeably to the provisions of the act of Congress aforeasid, those proposals (being acceptable in other respects) will be preferred, which shall engage to carry the mail in a steam ship or ships, and shall stipulate to deliver said ship or ships to the United States, or to their proper officer, on demand made, for the purpose of being converted into a vessel or vessels of war, the United States being bound, on their part, to pay the fair full value thereof at the time of delivery, to be ascertained by four appraisers, appointed two by the President of the United States, and two by the owner or owners, with an umpire, in case of disagreement, to be appointed by the President of the United States.

It should be shown, by the certificate of a post-

reopen on Tuesday. to see them, both in New York and Boston. They care with astonishing rapidity rheumatism, gout, tic-doloreux, fits, cramp, sick headache, indigeation, paralysis, stiff joints, general debility, deficiency of nervous energy, and all nervous disorders. They produce all the beneficial results of the ordinary galvanic battery, or electric and magnetic machines, without the injurious shocks which always accompany their application. The secret of preparing the Ring was discovered by Professor Harmance Christie, of London, in October last, and they have been recently introduced into this country by Dr. A. Christie, who warms the American public, from the beginning, to beware of spurious imitations. To guard against fraud, he will appoint but one agency in each of the cities of the United States.

For sale by the only agent in this city.
